SUMMARY

Frontend Developer with **3+ years** of experience building production web and cross-platform mobile applications across **edtech, gaming, and social-networking platforms** using **Angular, TypeScript, Ionic, and React Native**. Built **40+ reusable UI components** across **5 products**, cutting development time by **~25%**. **Lead Frontend Engineer** on SIYA AI, an AI-graded school assessment platform, owning architecture, performance optimization, and a custom templating engine end-to-end. Skilled in **RxJS and Angular Signals-based state management, RESTful API integration**, and **Nx monorepo** architecture, with a track record of shipping responsive, cross-browser interfaces within Agile Scrum teams.

TECHNICAL SKILLS

Frontend & Mobile: Angular 17+, Ionic 8, Capacitor, React Native, HTML5, CSS3, Responsive Design

Languages: TypeScript, JavaScript, Python

State Management & Data: RxJS, Angular Signals, RESTful APIs, Firebase/Firestore, D3.js

Architecture & Tools: Nx Monorepo, Azure API Management, Git, Figma, Jira, Linux

Practices: Agile Scrum, Code Reviews, Performance Optimization, CI/CD, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

OAKS Solutions — Frontend Developer

Hyderabad, India | Dec 2024 – Present

- Frontend engineer on **SIYA AI**, an AI-graded assessment platform for grades 6–12 built with **Angular 17+, Ionic 8, and Capacitor**; built the teacher-facing product from scratch, including onboarding, navigation, and a question-generation system spanning **13+ question types**.
- Partnered with backend engineering to cut worksheet-creation time from **~4 minutes to ~1 minute** and reduced the initial JS bundle by **~2.3MB** through lazy-loading and dependency optimization.
- Migrated the application to **standalone components and zoneless change detection** using Angular Signals, eliminating the NgModules/Zone.js dependency.
- Designed and built an **HTML templating engine** (Handlebars, Mustache, reveal.js) from scratch as sole engineer, powering question papers and lesson-plan slides across all grades and subjects.
- Top contributor on **PEEKAZOO** (Ionic/Capacitor/Phaser kids' app) and contributor across **TITLI, TOPTRIX, BGR/TRIPCARD, and MAVRICKS** platforms; owned CI/CD tooling and led code reviews within Agile Scrum delivery.

Clikkin — React Native Developer

Chennai, India (Remote) | Nov 2024 – Dec 2024

- Built and shipped core UI screens for **The Startup Club**, a mobile networking app, delivering a consistent experience across iOS and Android using **React Native and Expo**.

- Collaborated within a **4-member cross-functional engineering team** to ship features in fast, iterative cycles.

Clikkin — Angular Developer (Intern)

Chennai, India (Remote) | May 2024 – Nov 2024

- Built and maintained frontend features for **VIVADA**, an anti-misinformation platform, contributing to a production-grade Angular web application.
- Implemented interactive data visualizations using **D3.js** to help users understand how content spreads across social networks.

iWish Labs, Inc. — Angular Developer (Intern)

Virginia, USA (Remote) | Apr 2023 – May 2024

- Designed and developed the frontend for **Tot Master**, a web application for early learners, taking full ownership from UI implementation to backend integration.
- Integrated **Firebase** for real-time data sync, authentication, and CRUD operations.
- Translated **Figma** designs into responsive, cross-browser compatible UI components using HTML5 and CSS3, resolving performance bottlenecks to improve load times.

PROJECTS

Welcoming Bot — Raspberry Pi, Python, OpenCV

- Built a motion-detection system using computer vision to automatically trigger a greeting when someone enters a room, integrating hardware and software.

ACHIEVEMENTS

Employee of the Month — OAKS Solutions, April 2025

EDUCATION

Usha Rama College of Engineering & Technology — *Gannavaram, India*

GPA: 8.01 / 10.0
