SUMMARY

Frontend Developer with **3+** years of experience designing, developing, and maintaining scalable web and cross-platform mobile applications using **Angular, TypeScript, and Ionic**. Experienced in building and maintaining **reusable component libraries** and design systems for consistency and reusability across enterprise products. Skilled in **RxJS-based** state management, **RESTful API** integration, and delivering responsive, cross-browser compatible user interfaces. Hands-on with **Nx monorepo, Capacitor, Azure API Management, Git**, and Agile Scrum delivery, with a strong focus on writing clean, maintainable, and performant code.

SKILLS

- **Frontend:** Angular, Ionic, Capacitor, React Native, HTML5, CSS3, Responsive
- **Languages:** TypeScript, JavaScript, Python
- **State Management & APIs:** RxJS, RESTful APIs, Async Data Pipelines
- **Design Systems & UI:** Reusable Component Libraries, Figma-to-Code, Design Consistency
- **Backend/Cloud & Tools:** Azure API Management, Git, Nx Monorepo, Jira, Figma, Linux
- **Practices:** Agile Scrum, Code Reviews, Debugging, Cross-Functional Collaboration

EXPERIENCE

OAKS Solutions - Frontend Developer Dec 2024 – Present, Hyderabad

- Design and develop cross-platform applications using **Angular 17+**, **Ionic 8**, and **Capacitor**, deployed to **Android and iOS**.
- Built and maintained a design system of **15+ reusable Angular components** used across **2 enterprise products**, ensuring UI consistency and reducing development time by **~25%**.
- Architected asynchronous data pipelines and state management using **RxJS** to improve scalability and maintainability of application data flow.
- Integrated **RESTful APIs across 10+ modules**, troubleshooting issues and collaborating closely with backend teams on data contracts to enhance overall user experience.
- Conducted code reviews, contributed to sprint planning, and drove performance optimization within an Agile Scrum environment.

Clikkin - Frontend Developer (Intern → Junior) May 2024 – Dec 2024, Chennai

- Developed and shipped production **React Native** mobile features within a **6-member** Agile engineering team.
- Integrated **RESTful APIs** into dynamic screens, handling asynchronous data flows and state updates across the app.
- Improved responsive design, mobile UI stability, and cross-device compatibility across Android and iOS.

iWish Labs, Inc. - Angular Developer (Intern) Apr 2023 – May 2024, Virginia

- Built an **Angular single-page application** with Firestore, implementing real-time data sync and CRUD operations.
- Translated **Figma** designs into responsive, cross-browser compatible UI components using HTML5 and CSS3, contributing to a consistent design system.
- Integrated RESTful APIs and resolved UI performance bottlenecks, improving load times and application responsiveness.

PROJECTS

Azure API Management System

Feb 2026 – Present

- Designing and configuring **Azure API Management policies** for API authentication, traffic control, and rate limiting.

Welcoming Bot (Raspberry Pi, Python, OpenCV)

- Built motion detection system using computer vision
- Implemented real-time image processing & automation.

ACHIEVEMENTS

Employee of the Month – April 2025

EDUCATION

B.Tech, Electronics & Communication Engineering

Sept 2019 – Apr 2023

Usha Rama College of Engineering & Technology, Gannavaram

GPA: 8.01/10.0
